PROFESSIONAL SUMMARY

Computer Engineer (B.S.) with hands-on experience building custom modules and front-end interfaces for Odoo 16/18. Works with Python, JavaScript/TypeScript and React, and has built full-stack projects with Flask, FastAPI, Next.js and SQL databases, including AI workflow automation with n8n.

PROFESSIONAL EXPERIENCE

Front-End Developer Intern Sep 2025 – Apr 2026

OSTİM Technical University, Digital Transformation Coordination Office (DDK) — Ankara, Turkey

- Member of the in-house Software Development Team, working under Scrum principles and CMMI standards; took part in sprint planning, task management and code reviews.
- Odoo React UI Integration:** Built and integrated a React-based interface within the university's Odoo ERP, including custom components, state management and asynchronous API communication with Odoo back-end services.
- Custom WebP Addon (Odoo CMS):** Developed and deployed an Odoo addon for WebP images across the university website, with automated conversion and delivery that reduced file sizes and improved page load speed and Core Web Vitals.
- DILMER Portal Redesign:** Redesigned the five core pages of the Foreign Language Department website with responsive, accessible layouts, restructured program information and alignment with university branding.
- Developed custom Odoo 16/18 modules and web snippets for administrative workflows; supported back-end integrations, database operations and Linux server maintenance.
